

SCHOOL PHILOSOPHY FORM

2011-2012

Student's Name

Entering Grade

We feel that it is vital for students attending our Academy and their parents to understand and be in agreement with our philosophy.

Our Philosophy

We believe in the strength of a well-rounded education: an excellent academic program combined with a strong arts program to assure the preservation of our culture.

We believe in a multi-lingual society and the essential need to achieve better communication between countries and cultures in order to promote a peaceful, productive society and world.

We believe in technology working for man and not man working for technology.

We believe in the sacred partnership between the family and the school. We believe the school completes and enriches the moral and spiritual education that begins in the home.

Your Goals for Your Child

How does our philosophy fit with the goals you have for your child? Please be as specific as possible.
