SECTION II Parent's Philosophy and Goals

School Philosophy

We feel that it is vital for students attending our Academy and their parents to understand and be in agreement with our philosophy.

Our Philosophy

We believe in the strength of a well-rounded education.

We believe the arts stimulate self-awareness, creativity, self-confidence, communication and thinking skills, and energize all other areas of the curriculum.

We believe a strong and demanding academic foundation provides students with the skills and knowledge necessary to succeed in life.

We believe the development of a strong, healthy body, mind, and spirit is an essential component in a child's education.

We believe in technology working for man, not man working for technology.

We believe in the power of character. Discipline, respect, and empathy must be an integral part of a child's education.

We believe in the sacred partnership between the home and the school.

Your Goals for Your Child

How does our philosophy fit with the goals you have for your child? Please be as specific as possible.
